### QUANTUM BATTERY METALS ANNOUNCES MOBILIZATION OF GROUND CREW FOR ITS LITHIUM FOCUSED WORK PROGRAM

**Vancouver, British Columbia – Quantum Battery Metals Corp. (CSE: QBAT; OTC: BRVVF; FRA: 23B) (“Quantum” or the “Company”)** has begun to mobilize a ground crew for its three lithium projects, Rose West, Alanel, and Kelso Property as a priority for the 2021 mining program. The Company will be arranging and mobilizing a ground crew and helicopter supported prospecting of the Quebec properties.

The work being done will include rock sampling and the Company intends to use the survey results as a deciding factor on which parts of the three properties to start with. However, all three properties are located within Quebec in which cost and time for travel will be reduced due to the close proximity to each other. The proposed program budget will be adjusted as new results come in from initial geological work. The Company expects to have the initial surveying and groundwork done by 2021 Q3. The Company is excited to proceed with the mining program in 2021 full force through the exploration and prospecting of the Company’s lithium properties.

“We are very excited about the prospects of these three properties and will be working aggressively and diligently to explore these grounds,” states David Greenway, Director.

**Forward-Looking Information** This news release includes certain statements that may be deemed "forward-looking statements". All statements in this release, other than statements of historical facts, that address events or developments that Quantum Battery Metals Corp. (the "Company") expects to occur, are forward-looking statements. Forward-looking statements are statements that are not historical facts and are generally, but not always, identified by the words "expects", "plans", "anticipates", "believes", "intends", "estimates", "projects", "potential" and similar expressions, or that events or conditions "will", "would", "may", "could"

or "should" occur. Although the Company believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results may differ materially from those in the forward-looking statements. Factors that could cause the actual results to differ materially from those in forward-looking statements include market prices, exploitation and exploration successes, and continued availability of capital and financing, and general economic, market or business conditions. Investors are cautioned that any such statements are not guarantees of future performance and actual results or developments may differ materially from those projected in the forward-looking statements. Forward-looking statements are based on the beliefs, estimates and opinions of the Company's management on the date the statements are made. Except as required by applicable securities laws, the Company undertakes no obligation to update these forward-looking statements in the event that management's beliefs, estimates or opinions, or other factors, should change.
